DETAILED ACTION

The indicated allowability of claims 1-8 is withdrawn in view of the newly discovered reference(s) to 10/814,940. Rejections based on the newly cited reference(s) follow.

Double Patenting

Claims 1-8 of this application conflict with claims 1-8 of Application No. 10/814,940. 37 CFR 1.78(b) provides that when two or more applications filed by the same applicant contain conflicting claims, elimination of such claims from all but one application may be required in the absence of good and sufficient reason for their retention during pendency in more than one application. Applicant is required to either cancel the conflicting claims from all but one application or maintain a clear line of demarcation between the applications. See MPEP § 822.

Claims 1-8 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-8 of copending Application No. 10/814,940. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.

37 CFR 1.56 states (in part) that it is the duty to disclose to the Office all information known to the person to be material to patentability.
